NOTES :

All Merbau has pencil round corners.

Merbau will bleed a red/brown coloured tannin which can stain adjacent surfaces.

It should be coated with a minimum two coats of a good quality timber coating before being exposed to rain.

Like all timber in exposed situations regular maintenance should be kept up.

Also available in the Magna Merbau range is Laminated GL13/GL18 Posts and Beams and also decking.

NOTES :

Unseasoned F22

All "Stocked" Merbau is dressed with pencil round corners.

Merbau will bleed a red/brown coloured tannin which can stain adjacent surfaces.

Stocked items come pre-oiled with 1 coat of Intergrain Universal Oil

Sizing may have some variation +/- 10mm

Like all timber in exposed situations regular inspection and maintenance should be kept up.

Being unseasoned expect checking and splits to develop whilst acclimatising.

We strongly recommend applying an end-sealer to all cut ends

Lengths and sizes subject to availability, please check before ordering

NOTES :

We strongly recommed decking be given at least one coating on all four sides prior to installation.

Regular maintenance is necessary to keep a timber deck in good condition.

Merbau will bleed a red/brown coloured tannin which can stain adjacent surfaces.

Most other hardwoods also tannin stain to some lesser extent.

To minimise tannin leach it should be coated with a min two coats of a good quality timber oil before being exposed to rain/water.

All timber decking will vary in width as it acclimatises to the local environment, please expect and allow for this during installation and ordering.

All decking can be Intergrain Uni Oil pre-coated in our factory, narrow boards add $1.50/lm, wide boards add $2.15/lm (excl gst).

Minimum charge "Set-Up Fee of $150.00" may apply for small quantities (below 300 LM) of coating.

Note when pre-coating to order we may require up to 10 working days to allow for coating.

Fiji Mahogany has been treated to increase durability, offcuts should not be burned. Please ask for more information.

Approx 50 screws per sqm for 90mm wide decking

Approx 30 screws per sqm for 140mm wide decking

Decking prices can move regularly, please check with our office to ensure you are using an up to date price list.

Our Merbau & Heimu decking is FSC® Certified.

NOTES :

Whilst NewTechWood is a manufactured product variation in grain and colour should be expected. When installing it is recommended that boards be mixed up not just taken from the top of the bundle this is particularly important when more than one pack is being used on a job.

Similarly there will be some variation in board width, care should be taken and allowances made if working to tight tolerances.

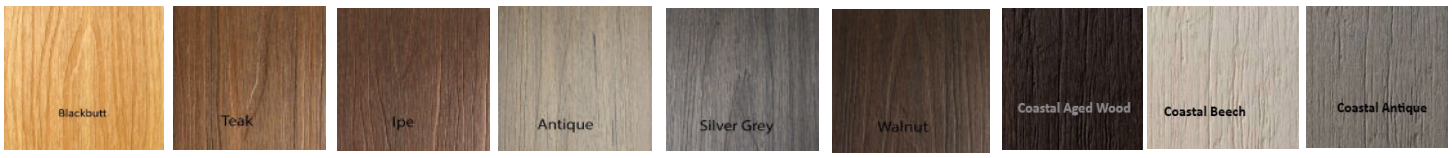

Board width may vary +/- 2 to 3mm

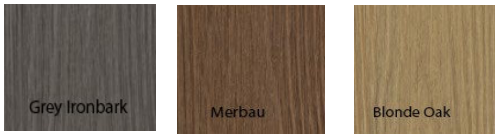

Always follow manufacturers installation guide.

Note : Joist centres refer to residential applications only.

Note : Clip coverage is approximate only and will vary from deck to deck depending on configuration and joist spacings.

Important installation instructions are available online at www.newtechwood.com.au

PERFORATED CLOSURE	Aluminium	25X50	3.0M	55.00	60.50	

NOTES :

Whilst Millboard is a manufactured product variation in grain and colour should be expected.

Similarly there will be some variation in board width, care should be taken and allowances made if working to tight tolerances.

Always follow manufacturers installation guide.

Note : Joist centres refer to residential applications only.

Note : Screw coverage is approximate only and will vary from deck to deck depending on configuration and joist spacings.

Important installation video's are available online at www.austim.com.au

NOTES :

Whilst Trex is a manufactured product variation in grain and colour should be expected. When installing it is recommended that boards be mixed up not just taken from the top of the bundle this is particularly important when more than one pack is being used on a job.

Similarly there will be some variation in board width, care should be taken and allowances made if working to tight tolerances.

Always follow manufacturers installation instructions available online.

NOTES :

H3 pine framing is either F7 or MGP10, please advise if you have a particular requirement

H3 pine framing is green and a mix of LOSP and occasionally CCA Treated.

Treatment methods are indentified with a label or printed on each board.

Be aware colour strength of green treatment will vary from piece to piece.

Be aware CCA treated timber use is restricted in certain applications.

NOTES :

Thermally Modified and H3 LOSP Treated, battens, fins and screening generally have arrissed edges

Square Dressed finished sizes will be 2-4mm smaller in section size

Factory Coating will only be applied to bandsawn or brushed finishes.

Standard Series is not suitable for brushing, dressing or Sioox coating.

Availability of specific sizes and lengths cannot be guaranteed.

Typical 135mm Cladding will require approx 30 screws per sqm

Externally we strongly recommend a fine bandsawn finish , internally either bandsawn or smooth/dressed is acceptable

Fins and Beams meet GL8 structural rating.

Factory coating of fins and battens poa.

^ Can also be dressed smooth finish but for internal use only, additional charges will apply poa.

VALUE ADDING SERVICES

Austim employ a full-time timber machinist and operate a number of machines to re-manufacture and add value to our timber products and at the same time providing our customers with a better more valuable product specific to their application.
Note we will only machine our own timbers, we are not a custom machining shop.

Machinery list :

6 Head Moulder
4 Sider Planner
Robinson Bandsaw
Buzzer
Thicknesser
Spindle Moulder
Rip Saw
Coating Applicator
Wire Brusher
Flat Bed Sander

Please call our sales team and discuss your particular requirements.

IMPORTANT INFORMATION

General

Please note **pricing may change without notice**, please confirm pricing when quoting and placing orders.
All products and prices offered are subject to availability of stock, please ask for confirmation of availability when quoting or placing order.
Timber is a natural product with variation in appearance from piece to piece being the norm, any samples provided are an indication only of the final product.

Austim do not accept cash on delivery, non account sales will require full payment prior to delivery.
Austim can accept payment by credit card in person, online or over the phone (Visa & Mastercard only)

Any claims in relation to quantity or quality of goods supplied must be made with 7 days of delivery.
a 15% re-stocking fee (subject to a minimum fee of $25) will be applied to all returns except valid and agreed claims.
All sales are subject to our Terms and Conditions of Sale, available to view on our website www.austim.com.au

Hints for Ordering Timber

Have a cutting list ready of your finished sizes and lengths as we may need to offer an alternative if we do not have your first choice.
We endeavour to keep a good selection of sizes and lengths in our racks however we may have to break open a pack to fulfill your order, this may require extra time.
If you need to colour match for a job or to veneers we must ask that you come in and select the material yourself.

Delivery

Standard delivery to account customers business premises (with forklift off-load facilities) or nominated transport yards within the metro area $70 + GST. If Hiab off-load required extra charges will apply.
Customers are welcome to pick up from our huge yard or send their own truck or courier.
Site delivery see next page.
Maximum length delivery with our truck is 9.0M
Longer lengths can be quoted and delivered by arrangement.

Our truck may refuse to unload if the driver deems there to be a safety issue or the potential for property damage in which case he may ask the customer to sign a potential damage waiver.

Ex-Yard Pick Ups

We encourage pick-ups but please make sure your vehicle is adequate for the job.
Consider length and projecting loads, weight capacities of roof racks etc.
We may refuse to load if we consider to do so would contravene the Road Traffic Code 2000.
If unsure please consult the Road Traffic Guidelines.
